Major Breakthrough- Pancreatic Cancer

Mar 13, 2016 6:24:00 PM / by Winter Ninivaggi

New discovery in the development of pancreatic cancer. A major medical breakthrough has paved new roads in understanding what causes pancreatic cancer to develop.

Researchers are studying the molecular mechanisms that cause the cancer to grow. They found that the tumors will often lose the ability to express a ribonucleic acid molecule called miR-137.

This particular molecule sparks a defense mechanism in the body called cellular senescence. This keeps cancer cells in check.

With the loss of miR-137, various mutations can be observed in pancreatic tumors to trigger uncontrolled cell growth and ultimately, cancer. Maybe the loss of miR-137 is related to pesticide exposure that is prevalent in our foods.

Understanding the cause of the loss of miR-137 expression can lead to the creation of new strategies of treatment and prevention. This could lead to the prevention interventions.

Restoring normal levels of the molecule in pancreatic cancer cells, a protective effect can be seen which will induce the defense mechanism and stop the cells from spreading. We have a new pancreatic cancer patient who has read about ozone therapy and sodium selenite. She described her chemo cocktail as 4 aggressive drugs that had my head in the toilet for 9 days. Her oncologists kept pushing for more treatment until she said "no more - there has to be another way".

We can't make any promises, but we offer the highest quality ozone and homeopathic chemotherapeutic agents available. We listen to our patients and walk the path with them. Interventions happen in hospitals and healing happens in our office.

For cancer treatments we offer safe and effective I.V ozone therapies that flood the cells with oxygen making the cells healthy and the cancer very unhappy. We also have nutrient rich vitamin C and glutathione drips. We support a very healthy lifestyle full of nutrients to kick start your immune system.

If you have cancer we have options and are your go-to Ozone therapists.

About Me in Connecticut

Dr. Isadora Guggenheim is a board-certified and licensed Naturopathic physician and RN in CT. Since 2003, Dr. Guggenheim has seen over 8000 patients and successfully treated Parkinson's, acute and chronic Lyme/co-infections, MS, inflammatory arthritis, psoriatic arthritis, Hashimoto's and other thyroid conditions, erectile dysfunction, prostatitis, cardiovascular disease, allergies, ADD/ADHD, fertility issues, asthma, sarcoidosis, COPD, musculoskeletal issues that require non-surgical interventions, mood disorders, women's issues and hormone balancing for men and women.

"Treating and reversing autoimmune conditions is personal to me because I was diagnosed with severe psoriatic arthritis in 2006, figured out the root cause of my disease and have been in remission ever since. I have felt the pain and fear of a chronic debilitating illness. I am on a mission to prevent and reverse the ravages of autoimmune conditions. Disease means change and I assist the patient to make strategic changes to achieve a functional and sustainable remission status. We can't change your genes, but we can turn off your "dirty genes" that express disease. "

Dr. Guggenheim has advanced training in environmental medicine, oncology, I.V. therapies, functional nutrition and Ozone therapies. Naturopathy is defined as the diagnosis, prevention and treatment of disease and health optimization by stimulation and support of the body's natural healing processes as approved by the State Board of Naturopathic Examiners and with the consent of the Commissioner of Public Health.

About Me in New York State

Isadora Guggenheim is a licensed nurse practitioner, registered nurse, certified nutrition specialist and licensed massage therapist. She offers holistic primary care consults and physical exams, nursing services, patient education, nutritional counseling, I.V. therapies and massage therapy. Isadora Guggenheim is the head nurse practitioner for all I.V. therapies. She collaborates with Dr. Enzenbacher and other healthcare providers.

The practice of the profession of nursing is defined and diagnosing and treating human responses to actual or potential health problems through services as case finding, health teaching, health counseling and provision of care supportive to or restorative of life and well-being, executing medical regimens prescribed by a licensed physician, dentist or other licensed health care provider legally authorized under this title and in accordance with the commissioner's regulations. As a nurse practitioner, Dr. Guggenheim is recognized as a primary care provider who can diagnosis and treat patients autonomously. She has full prescribing rights.

The practice of the profession of massage therapy is defined as engaging in applying a scientific system of activity to the muscular structure of the human body by means of stroking, kneading, tapping and vibrating with the hands or vibrators for the purpose of improving muscle tone and circulation.

Isadora Guggenheim ND, FNP, RN, MS, CNS, LMT
 Naturopathic Doctor (CT and VT only), Family Nurse Practitioner (NY), RN (NY, CT, PA, NJ), Masters in Nutrition, Certified Nutrition Specialist (recognized in all states), Massage Therapist
